SC PUBLIC SERVICE  
COMMISSION

Re: 26 S.C. Code Ann. Regs. 103-607 – Knology of South Carolina, Inc.

Ms. Boyd;

Section 103-607 of the South Carolina Code of Regulations requires that all telephone utilities that provide retail residential local exchange service that have not invested at least five million dollars in telecommunications facilities in South Carolina to file a bond with the Public Service Commission (“PSC”). This letters serves as verification that Knology of South Carolina (“Knology”) has, in fact, invested well over five million dollars in telecommunications facilities in South Carolina. Knology was certified as a competitive local exchange carrier by the PSC in June 1998 in Order No. 98-445. Over the next five years after its certification Knology invested over \$70 million in South Carolina by building its state-of-the-art hybrid fiber/coaxial network in the metropolitan Charleston area. To date, Knology’s investment equates to over \$90 million in South Carolina; \$10 million of which has been invested in the past twelve months.

Knology has been honored to provide competitive telecommunications services to the residents of South Carolina for the past 13 years. We look forward to providing this service for many more years to come. Should you have any questions, please do not hesitate to contact me at (706) 645-3966 or via email at [bruce.schoonover@knology.com](mailto:bruce.schoonover@knology.com).

Sincerely,

Bruce Schoonover  
Director – Regulatory Affairs  
Knology, Inc.
